Tooling

Technical Specifications

HAP System patented pipe brackets are designed to properly combine securement and protection of conduit piping. The powder coated steel finish allows use for indoor or outdoor applications. Use properly rated fasteners suitable for each application.

Physical Properties

Material: Powder Coated Finish Steel – 10 Gauge

Precautions

Read cautions and directions on packaging carefully before using this product.
KEEP OUT OF REACH OF CHILDREN.

Common Applications

HAP System pipe brackets are designed to hold pipes securely and provide protection for pipes. They are also suitable for use to secure and protect PVC, copper and cast iron pipes.

Contact HAP System for applications not specifically referenced above.
