

HAP V-HANGER LARGE

HAP Large hangers are con-centric so that pipes are always on center.

Lockable Rod Assembly for added security and load capacity. (Available with V-Hangers Only*)

Low carbon steel allows pipes to easily snap into the bracket during installation.

Fast and easy installation. Installs with two screws using a cordless drill/driver.

Rounded edges for safe installation. Durable power coated finish for indoor or outside applications.

Mounting plate provides stability for vertically horizontal installation.

Provides a gap between the mounting surface and the pipe.

KEEP OUT OF REACH OF CHILDREN.

Common Applications

HAP System pipe brackets are designed to hold & protect pipes securely and provide protection from nails or screws penetration.

Contact HAP System for applications not specifically referenced above.
